Extensive Engineering Design Capability in Commercial Kitchens and Support Spaces

Each kitchen installation has complex infrastructure that needs to be flexible, expandable, energy-efficient, and maintainable.

Erdman Anthony's commercial kitchen clients include:

- State University of New York (SUNY)
- PA State System of Higher Education (PASSHE)
- Alfred University
- Cornell University
- The Distillery Restaurant
- Delaware North Companies (DNC)
- Price Chopper Supermarkets
- Shaw's Supermarkets
- Stop & Shop Supermarkets
- Big Y Supermarkets

Erdman Anthony's experience includes:

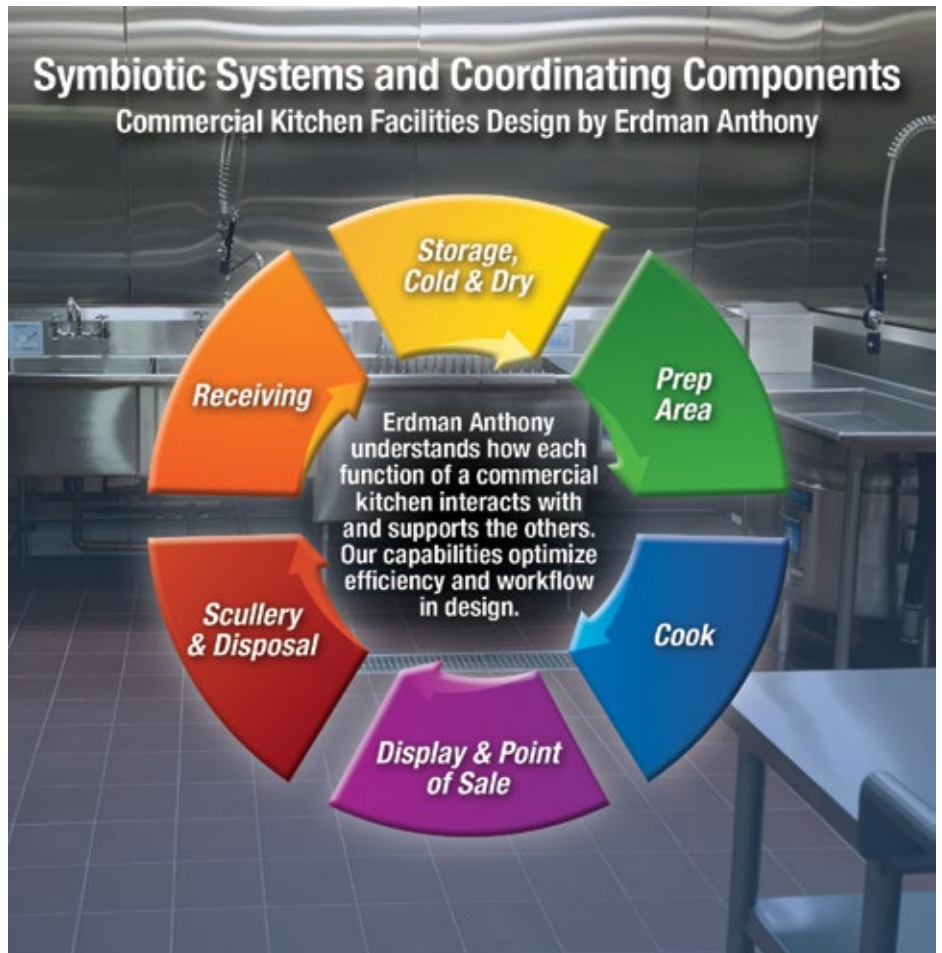

- Coordination with architectural, structural, and interior components to ensure that visual and functional requirements are maintained.
- BIM and clash-detection software minimize conflicts between disciplines.
- 4D technology to coordinate construction phasing.
- Energy efficiency and sustainable practices.
- Commissioning (New and Existing Buildings).

Your successful commercial kitchen is our specialty.

Space and equipment are the building blocks of a commercial kitchen design.

We understand those variables and how to put them all together. When it comes to overall workflow, we know that properly designed receiving and storage spaces are just as important as production and service areas.

We also have experience with teaching and demonstration kitchens.

Erdman Anthony's experience includes over 100 completed commercial kitchen designs in both new construction and renovation projects.

- HVAC controls
- Refrigeration
- Plumbing
- Electrical
- Fire-protection systems design
- Energy modeling
- Construction support services, including on-site observations and commissioning
- Application to state agencies or utility companies for capital incentives

Get proven commercial kitchen design experience from Erdman Anthony.

Since 1954, we've been dedicated to developing superior infrastructure solutions by partnering with our clients—studying their unique situations and listening carefully to their needs.

ERDMAN ANTHONY. YOUR RESOURCE FOR SUSTAINABLE BUILDING SOLUTIONS

SustainabiliTEAM™, Erdman Anthony's approach to sustainable design and building operation, combines the efforts of our engineers, energy analysts, and commissioning professionals. In addition to commercial kitchen facilities design, Erdman Anthony is a full-service engineering firm that offers:

- **Mechanical, Electrical, and Plumbing (MEP) Engineering**
- **Refrigeration Engineering**
- **Energy Consulting**
- **Commissioning (New and Existing Buildings)**
